

Investigational Drug Service is a service that manages medications used in clinical trials. Investigational Drug Specialist Pharmacy Technicians oversee accountability, handling and storage of investigational drugs as well as compliance with the FDA and study sponsor regulations. The Investigational Drug Specialist Pharmacy Technician works closely with the investigators, study coordinators, nurses and study sponsors.

UPSKILL | LEADERSHIP | COMMITMENT

The American Association of Pharmacy Technicians (AAPT) in partnership with the Academy of Pharmacy Technicians offers Investigational Drug Specialist Pharmacy Technician course for pharmacy technicians who want to expand their knowledge and skills assisting with investigational drugs in the pharmacy. Successful course completion awards the credential *in-D*.

The Academy's Investigational Drug Specialist Pharmacy Technician credential course is designed to enhance pharmacy technician knowledge and skills in the specific topic area. The course is offered online and can be completed in a manageable timeframe.

Earning an *in-D* credential in Investigational Drug Specialist Pharmacy Technician is separate and distinct from CPhT. The Investigational Drug Specialist Pharmacy Technician course helps fill knowledge gaps and increase skills associated with the role and responsibilities of a pharmacy technician specializing in Investigational Drug Services.

**\$50 AAPT Member/\$75 Non-member/Free with ACPT application**
